## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art of record because the prior art of record does not teach the claimed subject matter in conjunction with a rotary union having a stationary housing coupled to the stationary conduit; and a hollow drive shaft having a first end coupled to the stationary housing of the rotary union by a spring and having a second end coupled to the magnetron, wherein a flowpath is defined extending co-axially from the second end of the hollow drive shaft to a portion of the target assembly.

Claims 2-8 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter in conjunction with a seal interfacing with the hollow drive shaft proximate the second end.

Claims 9-11 are allowable over the prior art of record because the prior art of record does not teach the claimed subject in conjunction with a bearing assembly engaged with the hollow drive shaft; and a seal for isolating the bearing assembly from the cooling cavity.

Claims 12-15 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including a bearing assembly engaged with the hollow drive shaft; and a seal for isolating the bearing assembly form the cooling cavity.

Claims 16-20 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including a bearing assembly engaged

with the hollow drive shaft to facilitate rotation of the shaft relative the mounting flange;

and a seal disposed between the hollow drive shaft and the flange.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The

examiner can normally be reached on M- Th with Every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
